INSTALLATION INSTRUCTIONS

Please read carefully and save these instructions, as you may need them at a later date.

CAUTION

WARNING: Risk of Fire. Consult a qualified electrician to ensure correct branch circuit conductor. Min 90°C supply conductors.

Turn off the main power at the circuit breaker before installing the fixture, in order to prevent possible shock.

GENERAL

All electrical connections must be in accordance with local and National Electrical Code (N.E.C.) standards. If you are unfamiliar with proper electrical wiring connections obtain the services of a qualified electrician.

Remove the fixture and the mounting package from the box and make sure that no parts are missing by referencing the illustrations on the installation instructions.

ASSEMBLY AND INSTALLATION

1. Connect stems (13)(14)(15) one by one, then fix them into lamp body (16) and thread the stem (13) with canopy (11).
2. Secure the mounting bar(7) with box screws(10) to the outlet box(1).
3. Pull out the outlet wire and ground wire from the outlet box(1). Make wire connections
--Ribbed wire (w/o marking) from light to White wire(2) from power source.
--Smooth wire (w/o marking) from light to Black wire(3) from power source.
--Loop the ground wire(4) to mounting bar(7) with a ground screw(8).
4. Attach the canopy(11) against the outlet box(1), secure with the ball nut(12).
5. Install bulb (bulb not include)
6. Align the holes on glass (18) with holes on lamp body (16), and secure with ball nut (17), washer (19), and screw (20).

INSTALLATION IS NOW COMPLETED

NOTE: It is recommended that two people remove and replace the glass shade during bulb installation.
